

## Speed Cushion QUARTET

The QUARTET Speed Cushions are used to reduce the speed of cars without hindering the movement of public transportation, emergency services and cyclists.

### Technical characteristics:

- Made of UV-resistant rubber
- Economical, waterproof, stable
- Special non-slip surface structure meets the European standard 45 SRT
- Consists of 4 elements (2 left ones and 2 right ones) - quick and easy installation
- Highly visible even at night due to the reflective properties of the 3M tape
- Greatly reduces speed on all roads
- Thanks to the available sizes, it is particularly friendly to public transportation: allows buses to ride comfortably at reduced speed.

### Available in two sizes:

- Large: 1800 x 3000 x 65 mm
- Small: 1800 x 2000 x 65 mm

### Available in two colors:

- Red and white
- Black and white

	Element	Width (mm)	Length (mm)	Height (mm)	Weight (kg)	Mounting Elements
	Large Right	900	1500	65	77	Fixings 32 sets, Plugs 32 pcs, Joints 10 pcs 
	Large Left	900	1500	65	77	
	Small Right	900	1000	65	29
