

Parking Separators SGH

A Parking Separator SGH is intended to separate and designate parking spaces. This allows for fast and secure parking, and protects against damage to the car.

Application:

- city parking lots,
- logistics yards,
- parking lots at supermarkets,
- garages,
- driveways etc.

Technical characteristics:

- Material: rubber granulate and polyurethane
- UV-resistant
- The applied 3M reflective tape makes it perfectly visible even at night
- Attached to the surface with suitable screws

Available in two sizes:

- model 90: 900 x 152 x 102 mm, 2 mounting points, 8 kg
- model 180: 1820 x 152 x 102 mm, 4 mounting points, 17 kg

Available in black, with a white or yellow reflective tape.
